

STAINLESS STEEL FLANGE PINS (PAIR)

FIT-UP PRO

AN  GROUP BRAND

PRODUCT BROCHURE

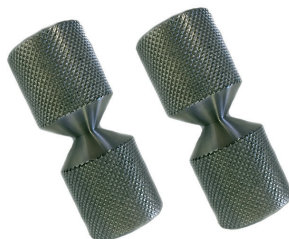

FEATURES AND ADVANTAGES

FIT-UP PRO's stainless steel flange pins, aka "two hole pins", are used for precise flange leveling and alignment. The Part No 2124 are smaller stainless steel mini pins that fit flange holes up to $\frac{7}{8}$ " (22 mm). The knurled surfaces are an additional feature that allow snug flange hole fitting that increases accuracy during flange alignment.

This product comes in blister packaging.
